

Determining Placement

In determining the educational placement of a student with a disability, including a preschool student with a disability, we ensure that the placement decision is made in conformity with the LRE provisions of IDEA. The placement decision is made by the PPT.

The placement of each student with a disability is determined, at least annually, based upon his/her IEP. Unless the IEP requires some other arrangement, students are educated in the school they would attend if they did not have a disability. Students are educated as close to their home as possible.

In selecting the least restrictive environment, consideration is given to any potential harmful effect on the student or on the quality of services the student needs. Each IEP includes an explanation of the extent, if any, to which the student will not participate with nondisabled students in the regular class and in extracurricular and other nonacademic activities, and a justification for removal from regular education. A student with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general curriculum.

Each student requiring special education and related services is educated in the school that he or she would attend if he or she did not require special education and related services, unless the IEP requires another placement.
