

Private Special Education Programs

A student with a disability who is placed in a private school or facility or other private special education program by our District is provided special education and related services in conformity with the student's IEP. This is done at no cost to the parents. The placement is at a school or facility that meets the standards that apply to state and local districts. Prior to the student's placement, our District convenes a PPT meeting to develop the IEP. A representative of the private program must attend the meeting or participate via telephone. The student has all of the rights of a student with disabilities who is served within our District schools. The student's IEP will be fully implemented in the private facility and, if necessary, by other providers authorized by our District. All out-of-state facilities will meet the educational standards for private special education facilities of the receiving state. If no such standards exist, the District will provide the Connecticut State Board of Education with documentation that the private placement is appropriate to the student's needs as set forth in the student's IEP.
