

# Moby Max

<https://www.mobymax.com/signin#>

## Why do we have students complete Moby Max?

Moby Math finds and fixes missing math skills that are essential for math comprehension. Students increase an average of 1 grade level with just 20 hours of practice. Moby Math is a comprehensive math curriculum for kindergarten to 8th grade. The primary reason that Moby Math is so effective is because students do not waste time practicing material they have already mastered. Instead, Moby targets areas where students are struggling and allows students to progress immediately once mastery is achieved.

## What needs to be completed?

- Students need to complete the Moby Max Placement Test by September 28, 2019.
- Assignments will be given every two weeks starting September 29, 2019. The assignments will have 40-50 questions.

### Due Dates:

#### • Placement Test

Start: Sept 15, 2019

Due: Sept 28, 2019

#### • Assignments

Start: Sept 29, 2019

Due: Every two weeks on Saturdays.

**Assignments**

This is the page where the Assignments will show up every two weeks. It is the students responsibility to get them done. Students will be given 40-50 questions every two weeks to complete. Once the student has completed the assignment it will disappear from this page.

Students may continue to work on Moby Max lessons, after they have completed the due assignment, to work on other math skills that may need practice.
