

Hamden High School

Learn about all that Hamden High School has to offer!

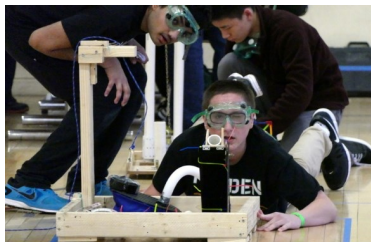

December 2, 2019 at 6:00pm

Parents: Join us in our auditorium for an information session and find out why you should choose Hamden High School for your child!!

Welcome to Hamden High!

HHS is a school serving approximately 1600 students in grades 9-12. Our required and elective course offerings are varied and engaging, and give our students an opportunity to explore many different interests.

- Diverse student population
- Graduates annually accepted to Ivy League schools, as well as other prestigious institutions such as Stanford, Williams, MIT, Spellman and scores of other universities
- Academically rigorous curriculum, supported and leveled to meet students' needs
- 9th grade "team" structure helps students transition from middle school to high school
- Extensive opportunities to earn college credit-including certificates and degrees - while in high school
- Students regularly win state and national awards and recognitions in business, science, math, English and the arts
- Caring and talented staff
- Wide variety of academic supports
- Over 70 clubs and after school activities

21 Advanced Placement Courses

Hamden High School offers many course options for students interested in excelling academically, including high-level electives in most content areas, Honors courses, and more Advanced Placement courses than most public or private high schools in Connecticut!

HECA

Hamden HS offers a dually enrolled Associates of Science College Degree in Manufacturing Engineering concurrently with our HS diploma for students who are accepted to and successfully complete our Hamden Engineering Careers Academy (HECA) program. This 68 credit AS Degree can be parlayed to direct entry into the expanding manufacturing workforce, or to competitive college applications. Students can also complete Certificates in CAD and Quality Control that can lead to direct Advanced Manufacturing workforce entry or be used as an asset in college applications. Applications for HECA's second cohort will be available in February 2020.

Dual Enrollment Programs and Courses

We believe that college course exposure enhances students' experiences, and helps to improve their outcomes. We are dedicated to expanding our dual enrollment programs. These programs allow for dual HS and college enrollment, and several culminate in a collegiate certificate:

Early Childhood Education
Engineering
World Religion
Marketing and Entrepreneurship

Culinary Arts
Intermediate Algebra
International Studies
Statistics

Hamden High School

Home of the Green Dragons!

Arts Programming at Hamden High School

Hamden High has a wonderful Arts program! Whether you are a virtuoso, artist, actor or just a student who wants to learn or develop skills in fine or performing arts, Hamden High School has classes for you! Also, multiple opportunities to showcase student artwork occur throughout the year, as well as musical concerts and theater productions. Our students and performing groups are often recognized for their accomplishments and invited to participate in state and national ensembles.
