Student Participation in Special Events

From time to time, students involved in athletics or other school-sponsored activities may win local and regional contests or otherwise qualify through competition or through nomination by state or federal agency or organization to represent the Hamden School System at advanced level events such as tournaments, New England festivals, etc.

Upon receipt of a group's written request for funding assistance, the Board of Education will evaluate each case individually and will fund student and advisor participation in such events if possible and in accordance with present procedures for reimbursement for meals and travel expenses.
